#### Profile

Experienced UX/UI Designer and Web Developer with a passion for creating exceptional digital experiences. Skilled in UI/UX design, PHP, WordPress, Figma, Miro, HTML, CSS and JavaScript. Entrepreneurial and innovative, with courses in Design Thinking, Lean UX, Figma PRO, and Agile Methodology. Currently a UX Designer at TV Globo, focused on developing products for sports and journalism. Committed to delivering high-quality digital solutions and bringing creative ideas to life.

## Work Experience

2025 - Present Dash Digital

#### IT Director / Senior Web Developer

Hibrid, PT

I lead the tech team at Dash Digital, managing web projects and creating custom WordPress solutions. I handle both front-end and back-end development, focus on UX/UI best practices, and guide the team to deliver high-performance, user-friendly digital experiences.

2023 - 2025 Globo

UX/UI Designer

Remotely, BR

As a UX/UI Designer at Globo, I create user-centered interfaces, develop prototypes, and contribute to the design system. I also conduct user research and perform A/B tests to improve the user experience continuously.

2021 - 2023 Cubiqdesign

#### Full Stack Developer

Remotely, UK

As a Web Developer, I built custom WordPress sites, converting designs to web and optimizing performance. I handled SEO, hosting, and project management with Git, offering ongoing support.

2020 - 2021 Azul Seguros

### As a Front-end Developer, I built features with PHP, JavaScript, and

Front End Developer

Remotely, BR

CSS, ensured code quality, tested and deployed updates, collaborated with UX and QA teams, documented work, and led projects using agile methods.

Chao Technology

2019 - 2020

Web Designer, IT Manager

In person, BR

As a WordPress Developer, I customize themes and plugins, manage sites and servers, and perform SEO and security audits. I also provide web trend consultancy and handle content management to improve site performance and marketing.

2015 - 2019 Epoxyfiber

#### Web Designer, IT Manager

In person, BR

managed Linux servers, optimized the company's website and online store, and led advertising campaigns. I performed market analysis, SEO, and social media management. I created marketing templates and ensured website security.

2014 - 2015 Central IT

## Microsoft N3 Senior Analyst

In person, BR

Managed Windows servers and services across 6 data centers, handled backups with Symantec Netbackup, and monitored systems with Nabbix and Nagios. Provided third-level support.

2011 - 2014 CTIS S.A

## Senior Network Administrator

In person, BR

Led infrastructure projects for Windows and Linux, managed essential services, and ensured security and availability with monitoring and backups. Oversaw network hardware and contributed to a virtualized environment with VMware.

ADD Tech

2011 - 2011

## Infrastructure Analyst

In person, BR

managed servers and networks, used Nagios for monitoring, developed server virtualization, and restructured backup routines.

TLD Teledata

2007 - 2011

#### **IT Operations Supervisor** I led a team of 3 analysts and 4 technicians, handling infrastructure

In person, BR

projects and providing advanced support for Windows and Linux systems.

TLD Teledata

2005 - 2007

## I managed Windows Server 2003 and services like MS SQL, IIS, and

Infrastructure Analyst

In person, BR

DNS, and led Linux server implementation with MySQL and Apache. I configured monitoring services using Cacti and designed backup routines for data security.

Ecosistemas

2002 - 2004

## I worked in support, handling software, hardware, and networking

Senior Network Support Technician

In person, BR

issues. I gained experience in first and second-level customer support and managed IT infrastructure for over 200 computers in a nine-story building.
